RE: Remedial Action Report  
UST Certification Form

Dear Mr. Gertner:

Attached please find a copy of the Remedial Action Report, Unregulated Heating Oil Tank Program Questionnaire and UST Certification Form for the remediation activities performed for your property. We have kept the original report for submittal to the NJDEP.

Please sign (and have notarized) the bottom portion of the enclosed UST Certification, under Remediating Party Certification. **Please return the completed UST Certification Form along with a check in the amount of \$400.00 (see below) to ADS Environmental, Inc. for submission to the NJDEP.**

The State of New Jersey has established an application fee of \$400 (NJAC 7:26C-9.2) for the NJDEP Department's oversight regarding the removal and remediation of leaking underground storage tanks (ust's) for unregulated heating oil tanks with a volume of less than 2001 gallons. The submittal enables the remediating party to obtain a No Further Action Determination from the NJDEP upon approval. You were previously informed of this fee through a separate correspondence from the NJDEP regarding notification of your leaking tank.

All checks or money orders should be made payable to *"Treasurer, State of New Jersey"*. Please reference Case No. 10-03-26-0930-35 on the check. Payment must accompany the Remedial Action Report and signed UST Certification.

ADS Environmental, Inc. thanks you for the opportunity to provide these environmental services. Should you have any questions, please do not hesitate to contact our office at 908/213-9400.

Sincerely,

  
Valerie Bogart
